

Enhance Patient Experience by Transforming Healthcare with Healthcare iBoT from Perpetuuti's Plug-and-Play iBoT Store

Bridging the Gap between Patients, Healthcare Providers &
Insurance Companies

What does the Healthcare iBoT do?

AI-powered Healthcare iBoT helps bridge the gap between patients, healthcare providers and insurance companies. In addition to enhancing patient experience, it also has the potential to transform clinical care. This iBoT automates every step of the patient's journey from symptom checking to appointment booking to report tracking. It also frees up medical practitioners to focus on care rather than spending time on managing technologies. Besides, it significantly reduces human efforts, minimizes chances of error and helps hospitals improve productivity by automating routine processes.

How is Perpetuuti's Healthcare iBoT Unique in the Market?

The Healthcare iBoT from Perpetuuti comes with built-in healthcare AI services, including a symptom checker and medical content from known industry resources, and language understanding models that are tuned to understand medical and clinical terminology. These and many more purpose-built features makes this Healthcare iBoT unique in the market.
