Perpetuuiti™

Resilience Redefined...

Free Your Workers from Repetitive, Mundane Tasks with Data Entry iBoT from Perpetuuiti's Plug-and-Play iBoT Store

Reduce Operational Errors. Boost Employee Productivity.

What does the Data Entry iBoT do?

The Data Entry iBoT has a great role to play in leveraging the manual data entry process to meet the needs of the modern digital age. The role of iBoT is to ensure that routine manual entry is supplemented with a degree of automation, resulting in high levels of accuracy for greater business outcomes and compliance.

Data Entry iBoT is capable of data entry in a wide range of applications. This iboT could potentially be deployed in any process where a user has to manually enter data in to a screen via a form. There are many legacy applications and older websites that request you to submit information using web forms. They do not allow you to bulk upload data from an excel file. These situations are well handled by our Data Entry iBoT saving a significant amount of time.

How is Perpetuuiti's Data Entry iBoT Unique in the Market?

Our commitment to "Intelligent Automation" and our vast experience with varied industry verticals and business functions makes our Data Entry iBoT unique in the market.

Ready-made iBoT capable of being configured to handle any website in a very short time-frame
